

Control & Safety Valves

Sale Engineering Products stock, or can source and supply at beneficial prices, a wide range of valves for both manual control and safety (pressure relief/reducing).

The following are standard stock items:

- Safety Relief Valves, 1/2" 5.5 bar or 1/4" 2.5, 3.0, 3.5, 4.0 and 5.5 bar
- Non-return/check valves, spring or swing, 1/2"/15mm to 2"/50mm
- Non-return/check valves with unloading port, 90° elbow, 1/2"/15mm
- Filtered ball valves (for pump feed lines), 1/2"/15mm to 2"/50mm
- Ball valves, lockable lever, WRAS-approved, 1/2"/15mm to 4"/100mm
- Ball valves, T-handle, 1/2"/15mm
- Gate valves, 1/2"/15mm to 4"/100mm

The following can be ordered, almost always for a quick delivery:

- Butterfly valves, gear operated, monitored – BS, LPCB, FM/UL
- Pressure/Safety Relief valves – for air or water, in any other size or pressure rating
- Pressure Reducing valves
- Test & Drain valves
- Virtually any other type or size of control valve

Please contact us with your requirements – we pride ourselves on our responsiveness, flexibility and quality and are therefore happy to source whatever you require wherever possible – quickly and at the best price.
